

# The Evolution of Business

## Trade Show 2012

### Theme

Our theme will focus on the changing industry, while bringing to light the journeys that each of our own businesses have been through since their founding. We are hopeful that each of you will be excited about this, and invite you to send us photographs, literature, even old business cards or logos from the earlier years of your company. If you wish to participate, please e-mail images to [annie@bddow.com](mailto:annie@bddow.com), or feel free to pass them along through your sales representatives. These will be featured in a presentation, compiling information from each one of you, that will be on display throughout the show.
